

ROB SPEIRS: BRANCH OPERATOR, PLACEMAKERS

Course of Study: NZ Executive MBA

Tertiary Institute: University of Auckland

Duration of Study: 2010—2011

The Background Story:

Rob's decision to undertake the NZ Executive MBA was a follow on and natural extension to the FB Leadership Foundation course he participated in during 2009.

Having previously developed his career via practical application in the work environment and through management trainee programs in-house at his previous employer, he felt that to continue his career and grow further an MBA qualification would be of great benefit.

5th December 2011 - A note of thanks

"Today I have completed my task of study towards the University of Auckland Executive MBA funded by the Fletcher Building Employee Education Fund.

This has proven to be two years of highs and lows and, while I have learnt and experienced plenty, it is the people I have studied with that has made it worthwhile. They have supported me and in turn, hopefully, I have been able to support them in their development, growth and learning.

It is with the greatest thanks to the Fletcher Building Employee Educational Fund and Fletcher Distribution Limited which has made this possible. Without both these organisations it is unlikely I would have undertaken the MBA.

I view the education fund as invaluable and encourage those work mates around me to make use of it."
