

TERTIARY SCHOLARSHIP GRADUATE: LOUISE TOLENAARS

Course of Study: Bachelor of Science
Majoring in Food Science

Tertiary Institute: The University of Auckland

Duration of Study: 2008—2010

Scholarships Received: 2008, 2009 + 2010

The Background Story:

Louise chose her degree program with the long-term aim of getting into the product development and marketing side of Food Technology.

The idea of using her knowledge of food science to create and bring to market food products which people want to buy and use appealed greatly to Louise.

Louise has applied herself consistently throughout her 3 years at University and finished her studies with a flourish, achieving an average of A+ across her last 4 papers! She is now well on her way to achieving her career goals, having taken on a role with New Zealand King Salmon as a New Product Development Technologist.

“The contributions made by the EEF allowed me to take full advantage of academic opportunities during my time at Uni, which in turn has left me well equipped to enter the workforce (especially so in this tight job market).”

Louise Tolenaars

PROUD PARENT AND FB EMPLOYEE: OLLIE TOLENAARS, FLETCHER INTERIORS

Louise is the youngest child of Ollie Tolenaars, who has been with the company for 10 years and is currently a Senior Estimator with Fletcher Construction Interiors division.

Ollie and his wife have always impressed upon their children the importance of gaining a good education and Louise has done them both proud with her outstanding work ethic and results.
